EXPERIENCE

Frontend & Full Stack Developer - E-Cell Tech Team

Oct 2024 - Present

Ruminate e-Cell, IIIT Surat | <https://ecelliitsurat.in>

- Helped build the official e-Cell website from scratch as a core developer; owned frontend architecture with React.js and Tailwind CSS and contributed to backend routes and API integration.
- Maintain the live product through feature delivery, bug fixes, responsive UI improvements, and production support; credited in the official developer section.

PROJECTS

TOM - Local-First Agentic Desktop AI & Automation Platform

Tech: Python, React, Ollama, Faster-Whisper, OpenWakeWord, MCP, WebSockets, SQLite, Qdrant, Playwright

- Built a privacy-first Windows AI agent with offline voice interaction, contextual memory, local RAG, proactive suggestions, and a real-time desktop dashboard.
- Implemented permission-gated automation across Windows, VS Code, browsers, filesystem, and a sandboxed terminal with 48+ integrations; added secure pairing, credential encryption, diagnostics, cancellation, retries, and 700+ automated tests.

Resume AI - AI-Powered Resume Analyser & Career Toolkit | <https://resume-ai-pearl.vercel.app>

Tech: React.js, Node.js, Express.js, MongoDB Atlas, Groq AI, JWT, Bcrypt, Multer, PWA

- Built and deployed an eight-feature toolkit covering ATS scoring, job-description matching, AI cover letters, resume rewriting, cold email, mock interviews, and AI chat.
- Added UPI subscription payments with UTR verification, Free/Starter/Pro plans, server-side usage limits, Google AdSense, Search Console, JSON-LD SEO, sitemap, robots.txt, and offline-ready PWA support.

PaperStack - IIIT Surat Previous-Year Papers Archive | <https://paper-stack-beryl.vercel.app>

Tech: React.js, Node.js, Express.js, MongoDB, Cloudinary, JWT, Tailwind CSS

- Collaborated with Asst. Prof. Rachit Nimawat on a centralized academic resource platform used by 500+ students, with secure PDF upload/download, authentication, nested comments, filters, and an admin dashboard.

Expense Tracker - Personal Finance Analytics Dashboard | <https://expensetracker2-eight.vercel.app>

Tech: React.js, Node.js, Express.js, MongoDB, Chart.js, Tailwind CSS, JWT

- Built daily/monthly analytics, category breakdowns, budgets, responsive visualizations, CSV export, average daily spend, and configurable budget-goal tracking.

Additional Projects

- Production-Ready Authentication Module - reusable MERN security module with signup/login/logout, refresh tokens, password hashing, real-time email OTP, account lockout, and protected routes.
- Multimodal AI Chat Application - chat, image-analysis, structured-JSON, and reasoning modes with persistent sessions and real-time streamed responses across Gemini model variants.

ACHIEVEMENTS & LEADERSHIP

- Reimaginings Hackathon, IIIT Surat: ranked 4th overall, missing third place by four points; also placed 4th in the WebExperience Competition and CSS Battle Competition.
- Served as Venus House Captain, leading the Class X cricket team and inter-house sports participation; active member of the IIIT Surat Art Club with an official Spring Fiesta certificate.
